KEYNOTE SPEAKER · AUTHOR · CONSULTANT

Dr. Tadeusz Jodlowski

Making complexity your competitive advantage.

ABOUT

Dr. Tadeusz Jodlowski is an **award-winning** keynote speaker, lecturer, composer, and author from England — now based in Zürich. With a doctorate grounded in **Complex Adaptive Systems**, he has spent decades teaching at top business schools and advising organisations on how to identify, map, and reduce complexity in their structures, strategies, and cultures.

A deep thinker with a disarming sense of humour, Tadeusz brings rigorous analytical frameworks to life through storytelling — making abstract systems thinking genuinely accessible to C-suite executives, board members, and leadership teams navigating rapid change across finance, technology, and beyond.

HOW WE WORK TOGETHER

Keynote

Thought-provoking speeches that spark new thinking on complexity, leadership, and the forces reshaping business today.

Workshop

Hands-on sessions combining research-based methods with practical tools to increase competitiveness and organisational clarity.

PowerChat

A private one-hour focused session to analyse your business, identify complexity hotspots, and chart a path forward.

SELECTED PUBLICATIONS

The Zurich Executive Toolkit

Practical strategies for banking and financial leaders adapting to heightened scrutiny and international regulatory pressures.

How to Manage Rescuer Feelings in a Post-Pandemic World

A psychologically informed guide to resilience, boundaries, and leadership in the wake of global disruption.

The Great Prince Harry Mystery

A cultural and psychological analysis exploring identity, institutional pressure, and the paradoxes of modern public life.

Ready to reduce complexity?

Book a keynote, workshop, or PowerChat — and turn complexity into clarity.
